Information and Instructions

Massachusetts General Laws chapter 152 requires all employers to provide workers' compensation for their employees. Pursuant to this statute, an *employee* is defined as "...every person in the service of another under any contract of hire, express or implied, oral or written."

An *employer* is defined as "an individual, partnership, association, corporation or other legal entity, or any two or more of the foregoing engaged in a joint enterprise, and including the legal representatives of a deceased employer, or the receiver or trustee of an individual, partnership, association or other legal entity, employing employees. However the owner of a dwelling house having not more than three apartments and who resides therein, or the occupant of the dwelling house of another who employs persons to do maintenance, construction or repair work on such dwelling house or on the grounds or building appurtenant thereto shall not because of such employment be deemed to be an employer."

MGL chapter 152, §25C(6) also states that "every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required." Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply sub-contractor(s) name(s), address(es) and phone number(s) along with their certificate(s) of insurance. Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage. Also be sure to sign and date the affidavit. The affidavit should be returned to the city or town that the application for the permit or license is being requested, not the Department of Industrial Accidents. Should you have any questions regarding the law or if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigations has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary) and under "Job Site Address" the applicant should write "all locations in _____ (city or town)." A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a home-owner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigations would like to thank you in advance for your cooperation and should you have any questions, please do not hesitate to give us a call.

TOWN OF DOVER
OFFICE OF WIRING INSPECTOR
P.O. BOX 250
DOVER, MA 02030
508-785-0032 X245

DUE TO NEW HOUSES BEING CALCULATED CLOSE TO MAXIMUM ALLOWABLE SERVICE, IT IS NECESSARY FOR ME TO INSIST ON THE FOLLOWING:

1. THAT THE APPLICATION PERMIT BE COMPLETELY FILLED OUT, LISTING RECEPTACLES, FIXTURES, OUTLETS, APPLIANCES ETC.
2. IN CASE OF A HOUSE THAT HAS A STAIRWAY LEADING TO AN ATTIC, THE SQUARE FOOT AREA IN THE ATTIC SHOULD BE INCLUDED IN THE CALCULATIONS FOR SERVICE.
3. IF A HOUSE HAS A LIVABLE SPACE OF FOUR THOUSAND(4,0000) SQUARE FEET OR OVER, THE CALCULATED LOAD SHOULD BE INCLUDED ON THE PERMIT (ARTICLE 215-5 OF THE NATIONAL ELECTRIC CODE)

I REGRET THAT THIS ADDED BURDEN HAS TO BE PLACED ON YOU, THE ELECTRICIANS, BUT SPECULATION HOUSES ARE BEING BUILT FOR TWO FLOORS OF LIVING SPACE AND UPON OCCUPANCY ARE BEING CONVERTED TO THREE OR FOUR FLOORS OF LIVING SPACE. IN THAT CASE THE SERVICE IS UNDER SIZED. THIS THEN IS AN ADDED EXPENSE FOR THE HOMEOWNER. IF NOT CORRECTED A BAD CONDITION EXISTS WHICH I CANNOT ALLOW.

TOWN OF DOVER BUILDING DEPARTMENT

IMPORTANT INFORMATION FROM THE WIRING INSPECTOR

Wiring inspections will be done Monday Tuesday Wednesday and Thursday.

Phone messages are checked frequently during the day. Requests for inspections should be left on the wiring inspector's voicemail 508-785-0032 ext.245.

Field inspections are usually scheduled for the afternoons.

Submit permit application and fee to Treasurer's office. If there is a question as to amount of fee, check with Building Department.

Please make sure that if the work is done in conjunction with a building permit that the building card is present on the job to be signed. Failure to do this may result in delays.

Electricians must be present on final generator inspections. The generator must be ready to run and a transfer must be witnessed.

Houses over 4,500 sq.feet must have at least 400 amp services.

Please call before starting work on photovoltaic jobs. Most rooftop installations require a rack inspection before putting panels on.

What is electrical work on PV installations?

The State board has interpreted the law and the electrical code to require that a photovoltaic system as defined by 527 CMR 12.00, Article 690.2 and associated apparatus such as but not limited to frames racks and modules must be assembled and installed by a licenced electrician.

This is strictly enforced.

The Massachusetts State Board of Electricians has ruled that all electrical work done to feed new and existing well pumps and controllers is to be performed by a licensed electrician and be permitted and inspected.
