" Friends of the COA - we should know in about a monthly the status for this group

" Caryl School - suggested we get a list from Engineers of what it would take to complete safety and code issues for the school

" Food Budget - suggested non-Dover residents that attend spiritual meetings should donate small amount of money toward snack.

" E. Bouldry brought up several issues that she had been asked by non-board members. We answered her questions to the best of our knowledge. These questions were excellent and we would like all board members to bring in questions from seniors.
