- I. Discussion of capital budget item at Chickering School.
  - a. As the school approaches its 10 year anniversary several items will soon meet the end of their projected useful life. Many of the items are reoccurring and do not fall under the definition large in value (>\$5,000) and infrequent in nature. We asked the school committee and staff to prioritize the list of items, determine which one can be considered regular maintenance and report back in the fall.
  
- II. Meeting adjourned at 9:00 am.

Respectfully submitted,  
Peter Mitchell, Chair
