MEDICARE - WHAT IS A MOON
For people with Medicare, MOON has a new meaning: “Medicare Outpatient Observation Notice.” This newly required notice must be given to some patients who have been admitted to a hospital for “observation.” Hospitals are increasingly admitting patients under observation status.

You may be surprised to know that even if you are admitted to a hospital room overnight, you might not be an “inpatient”. If you are under observation, you are considered an outpatient even though you may stay in a hospital bed for many days. This changes how your Medicare coverage works. The MOON will explain the reason for observation status and how it affects your Medicare coverage.

For example, if you have Original Medicare, with or without a Medigap plan, an inpatient hospital stay of at least three days is needed to get any coverage for skilled nursing facility (SNF) care. If you are under observation, you would not get any follow up SNF coverage paid for, even if it is medically necessary. However, if you are in a Medicare Advantage plan or your doctor is in an Accountable Care Organization, the rules are different and the three-day requirement may be waived.

For further assistance about this or any Medicare issue, contact the SHINE Program. Trained SHINE volunteers offer free, confidential counseling on all aspects of Medicare and related health and drug insurance programs. To schedule a SHINE appointment, call the Dover COA or call your local Senior Center.

Reminders for Summer from Public Health Nurse
Submitted by Leandra McClean, PHN of Walpole VNA
Welcome to June! Lots of reminders for this month:
⇒ **Stay Hydrated!** As we age, our thirst decreases, leaving us dehydrated more quickly. Look for additional signs that you may not be drinking enough: dry mouth and lips, skin more dry than usual and very yellow or concentrated urine. Most concerning is being lightheaded or dizzy when you first sit up or stand up. BE CAREFUL!
⇒ **Wear your compression stockings.** This time of year is the start of when this is most important. Before even getting out of bed in the morning is the best time to put them on; your feet and ankles are at their best. A touch of corn starch or powder will help them slide on easier.
⇒ **Check for Ticks!** We are expecting a bumper crop of ticks this year with the mild winter. In our area this means Lyme Disease at best and Babesiosis or Anaplasmosis at worst. Please tick check yourself and others!! Watch for fever/chills, increased fatigue, muscle and joint pain, headaches and rash that come and don’t leave within 24 hours—especially if you have been outside! These are all easily treated with oral antibiotics and early treatment can prevent more serious issues.
⇒ **Be safe in the sun** and wear sun screen and hats. Use products with DEET to help prevent mosquito bites. Have a great summer and get out and enjoy safely.
