ON THE LIGHT SIDE

Teacher: "If I gave you 2 cats and another 2 cats and another 2, how many would you have?"
Johnny: "Seven."
Teacher: "No, listen carefully... If I gave you two cats, and another two cats and another two, how many would you have?"
Johnny: "Seven."
Teacher: "Let me put it to you differently. If I gave you two apples, and another two apples and another two, how many would you have?"
Johnny: "Six."
Teacher: "Good. Now if I gave you two cats, and another two cats and another two, how many would you have?"
Johnny: "Seven!"
Teacher: "Johnny, where in the heck do you get seven from?!"
Johnny: "Because I've already got a darn cat!"

A man went to his lawyer and told him, "My neighbor owes me $500 and he won't pay up. What should I do?" "Do you have any proof he owes you the money?" asked the lawyer. "Nope," replied the man. "OK, then write him a letter asking him for the $5,000 he owed you," said the lawyer. "But it's only $500," replied the man. "Precisely. That's what he will reply and then you'll have your proof!"
