Acceptance of Minutes

Final Review of Hydrology Study and Acceptance

Any requests for further modification or addition must be made in writing and be clear in citing the page/paragraph, text, and reason.

Motion to Accept Report with attachments

Motion to set date and time of a Public Meeting to present the report

Motion to authorize the second in the cycle of measurements of monitoring wells.

Pending the much delayed delivery from the Town Accountant of a proper accounting of the financial condition of the monies appropriated, it is the intention to order a second set of monitoring measurements as was envisioned in the statement of purpose of the study and was as stated at the 2018 Town Meeting. The Study's value will be the production over a period of years of a data base record of ground water conditions, with the initial measurements of late 2019 only the start and therefore only an initial baseline.

You may view or request copies of the original time-stamped agendas at Town Hall during business hours or you may request to have a copy sent to you via email.
