Re: Site Plan of Land
Dunkin Donuts
14 Dedham St., Dover, MA

Dear Board Members,

The applicant has submitted a Site Plan application for the above captioned site. The proposed modifications include installation of a fenced dumpster with concrete pad and some reconfiguration of the front concrete walkway. The proposed work will slightly increase the impervious area by 276 square feet.

The increased area will not have an adverse impact on the surface water runoff. The runoff generated is de minimus as defined under the Massachusetts Storm water Management Standards.

Thank you for your attention in this matter. Please contact us should you need any further information.

Sincerely,
GLM Engineering Consultants, Inc.

A handwritten signature in black ink, appearing to read "J. Nihill", is written over the company name. The signature is fluid and cursive, with a large loop at the end.

Joseph M. Nihill, P.E.
